

Bloom's Categories	Learning Objective Verb	Activity	Assessment Tool	Notes
Knowledge <i>Recall, list, define, identify, collect, label</i>	Collect	Gather information (.pdf documentation, videos) about Voicethread and how to get started with the web application.	Tutorials available in the Blackboard Module	Learner will have .pdf documents, YouTube videos and *VTs all about creating, facilitating, saving, sharing, etc a VY.
Comprehension <i>Summarize, describe, interpret, predict, discuss</i>	Summarize	Post a reflection summarizing the tutorial resources for VT, according to the reflection rubric.	BOTC WIKI	BOTC Wiki in the course
Application <i>Apply, demonstrate, illustrate, classify, experiment, discover</i>	Demonstrate	Demonstrate your knowledge by responding to the BOTC VT.	VoiceThread Website (User)	A link will be available in the Bb Module for the learner to respond to a VT (To gain a student's perspective)
Analysis <i>Analyze, classify, connect, explain, infer</i>	Connect	Connect what you have learned about VT with the previous module on Bb's Discussion Board through a content map	Bubble.us or Inspiration (trial) or approved alternative mapping software.	This builds on a previous module in which the learner created a reflection about the Discussion Board tool in Blackboard
Synthesis <i>Combine, integrate, plan, create, design, formulate</i>	Design	Design a VT conversation on a topic for your course	VoiceThread Website (Administrator)	Learner will create and facilitate a VT (from the instructor's perspective)
Evaluation <i>Assess, recommend, convince, compare, conclude, summarize</i>	Summarize	Summarize the use of VT as a tool for student engagement in an online class	Word Document Or for extra depth e-portfolio, blog, or presentation	This builds on a previous module where the learner reflected on the importance of student engagement in an online class.

* VT = VoiceThread

¹ Group conversations around images, documents and videos. (2011, February 14). Retrieved from <http://voicethread.com/>
